

WORKSHOP PARTNERS

2007 USACE/SAME SMALL BUSINESS WORKSHOP

On April 26th, the Detroit District U.S. Army Corps of Engineers and Detroit Post S.A.M.E. are hosting our annual Small Business Workshop. Key representatives from the Small Business Administration (SBA) will also be in attendance. The event will be held at Selfridge Air National Guard Base, Michigan. The Workshop will allow opportunities for Small Business leaders and key local Federal Contracting decision makers to formulate a direct exchange of information and ideas. The event will provide time to learn about Federal small business programs, the value of teaming relationships between small and large corporations and upcoming local small business contracting opportunities. The daylong event will be moderated by LTC William Leady (Detroit District Commander) and includes Educational Programs, which will benefit both Small and Large Businesses. The luncheon Keynote Speaker is LTC Murray Starkel who is the Deputy Commander of the New Orleans District. The agenda will incorporate booths and networking with small businesses, large corporations, and several local contracting agencies.

For details on the conference, visit the Detroit Post web site:
